Are you talking of the original at frost clouds forums or daves slanderous statement of today?

frost clouds is here

on page 28 of 46 number comment #476 I think of what? 700 in speaking to a washington police officer or three I said this below
we had also just watched all these 911 conspiracy videos...like ed begly etc

and no one there thought me anti semitic as A) they knew what I referred to in my post and B) they knew I did not even say it...the australian did

some like dave and e may cant even read so why do they mention my writing?

and it was about LEAP law enforcement against prohibition

and the greens already dealt with it in may of 2007 with media here in vancouver

remember as well please I said all this many times here at the lists

HERE IS THE ACTUAL QUOTE !!!!!!!!!!!!!!!

change the law

same old,, same old.....
broken records ,, i think it lets these cops think they are doing something to protect society. how else could they enforce such stupid laws.

you cops blow me away,,,standing behind the law as you abuse people

one year later and zero changes here
why did you guys take the L.E.A.P. video away,,afraid the taps will stop on your power jobs?

i have sent a few hundred emails for some to come, to read for now and maybe contribute if necessary.
and we are removing this law that you use to abuse people's rights. when we are successful we will then be

pressing for reparation's and the persecution of over zealous police. wait for it.....remember that's the law ,,i cant wait.

Please view this from L.E.A.P.
law enforcement against prohibition.

i have since i was here, talking to you guys
taken your advise and continue to do just that, try to change the law.

i came in second for president of Canada's New Democrat Party last month and i have helped get Denver's cannabis laws changed and supported people working to do it in Nevada as well. I will be Part of Canada's Federal Parliament sooner than later,,somehow. we have people that have every Rodney king type of arrest documented and cant wait until these abusive types try to stand up in court and say,,that was the law, then.....sad ..i cant wait.....

you cops are on borrowed time as far as being the enforcers of bad laws and being used as society's GOONS. YOU soon will be seen as relevant again and as important as you used to be ,a pillar of the community. i realize how hard it would be to enforce stupid laws and i know i could not have thrown Rosa Parks from the bus. must be a redneck gene somewhere.

if we want to talk about laws,,why don't you care that your country started an illegal war in Iraq,,arrest some one you law racists!!!!

everyone knows but you guys whats going to happen and its way over due

hey i heard some guy in Australia knows someone who says he had something to do with your governments complicated attack on your shoddily built Jewish world bank headquarters. you know "the 2 towers" (who has the ring i wonder)better invade there too eh,,oh no oil?

half your country's income squandered on the military every year and you have children going to bed hungry every night disgusting!

the real truth about who did what and why will come out trust me.

hey don't get your pantie's in a Knot again ,dragon and mdpcb's, as its our rights we will win whether you like that or not,,remember you are "just" public servants. get it. Irrelevant in world events just numbers.

the man with the gold still rules and trust me some things are going to be bad for some. rubbing my hands together, i am so exited at the thought,,hmmm time for some illegal drugs, yes in honor of the ignorance here.
