If you go to the CBC story you will see that 70% of respondents did not even see anything anti semitic

and I did not before it could have said christian or muslem world bank for all I cared my comment was about the complete package of dissent about 911 about how even people like the dixie chicks were being used as weapons and hurt about the complete hypocrisy of the whole system...about those peoples hypocrisy I did not even know what the words anti semitic meant and actually find the shield some hide behind with it very offensive but then I fought for my country in the military ..was jailed for standing up for native canadians and have friends from every religion and color

the point in all of it was about LEAP and their standing behind unjust laws

I did find most jews on my side as well and can point you to many many links from healthy esteem jews who like ezra levant said bernie farber was creating antisemitics with his hate attacks mine included

I posted it at green [party.ca](http://party.ca) and was banned for it

if I posted one about native leaders talking about another native leader I know it would still be up there

yes I do believe the jewish peoples suffering is being used by bullies without the majorities consent or wishes

here is the article by the way and if you want the cbc one just pipe up please

this is from it

""""If I weren't a Jew, I'm afraid Burny would turn me into an anti-Semite. Nobody likes a bully telling you he wants to take away your freedom. And that bully says he speaks for all Jews. If Burny didn't exist, Stormfront would have to make him up."""

this political correct stuff is a joke to someone like me who has suffered so incredibly much....I do say so !!!!!
