You and them are traitors to our constitution

and you like e may did in court !!! probably then agree with this comment I put to her to show something in court

During the trial Elizabeth May was asked this question...below in quotations.

She gave an answer below it.

""You would agree, would you not, with the statement that Lawrence Martin has published in which he writes:

It is said that a hallmark of democracy is the toleration of dissent.
Best leave that one in the church pew.

Exceptional measures need be used to crush the opposition. Stuff such as taking the unprecedented step of launching personal attack ads between election campaigns. Or trying to push through a measure that would effectively cut off financing to the opposition. A heavy dose of demagoguery also can go a long way. Play on simple prejudices by accusing opponents of not supporting the troops or of being anti-Israel.
If nothing's working, if the going gets really tough, don't hesitate to bring out the heavy timber. Just after Parliament has reopened, have it shut down.""

and her answer was:

""Oh Lawrence martin, I have heard, absolutely right""..

Canadian journalism....asleep at the switch????
